His idea is, of course, that by thus keeping within the letter of the treaty there will be no channel for disputing the validity of the proposed law, and that before the period of suspension it may readily be extended. The bill includes the main provisions of Miller's bill in regard to requirements for certificates from the government of China and from our censule at ports of departure identifying the Chinese limit-

CENTRAL AMERICA.

Parama Points.

Parama Jan. 20.—The recent successful strike has been damaging to the railroad and steamboat companies. The Colon which arrived at Asphwali, January 9th, has not yet been discharged and several coal vessels at Asphwali are paying demurrage, no men being found to discharge them. At Panama the Colima arrived Jaz. 9th, and only began discharging argo yesterday. The Salvadore also arrived on the 9th, and has her cargo still on board, and the Honduran, advertised to sail san. 10th for Central America, has not yet received her tool nor a pound of cargo. The damage to the Pacific Mail by these losses and delays cannot be less than \$25,000. The steamspathy lalay, of the P. S. M. Co. service, bound for Callao, took to car oon her last voyage, and her homeward bound cargo is still in the launches. The railroad company suffered least of all; and was finally compelled to yield to the wishes of their connecting companies. For the canal company, the strike presented a very serious sepect; but the action of the manager in snapending work all along the line, anticipating trouble with the men, confused and bewildered the latter.

Fevers Prewalent. Passes Points

Fevers are prevalent at this season of the yes it is not too extravagant an estimate to say that to day it per sent of the population suffers from various forms of fathmus fever. Few cases are fatal ous forms of Isthmus lever. Few cases are fatal except among new comers, imported engineers and others from Europe are coming in for a large share of the thortaisty. Still the death roll is not exceptionally large. In no country under the sun, however, was there ever such thermat violations of all the canons of common sense in dare of themselves, as has been exhibited by the canal engineers. The maryel would be that they could have lived under any circumstance.

Souta American Notes. News from South America is meagre and unimportet. A Convention Fizzied.

New York, Jan. 24.—The steamer from Panama
Jan. 14th arrived. She brings the following: Four
dologates only of the eleven promised to represent
Central America at the Panama congress have presented thouselves. Those are the representatives
of Colombia, Costa Rica, Salvador and Guatemala.
The others bave not responded extept by promising
Colombia to expend over £20,000 in repairing the old
municipal hall, and a large amount for furniture,
carputs, etc., for the same, all of which will prove x
useless-repease. It is said to be the intention of
the general government to remove those remptuous
furnishings to Bogato and whee out every memorial
of the congress which never convened.

The Workester and Providence depot at Woonsocket, Rhodo Island, and several other buildings

GUITEAU CONVICTED.

The experts so far have rescrived only regular witness fees and mileage, but probably a way will be The experts so far have received only regular wit-ness feet and mineage, but probably a way will be found to reimbute them at least for their expenses, and by so much will the aggregate be increased. It is said that the special attorney fund in the constr-ment of justice is not available for this pur-pose, and that recourse will probably be had to Congress.

Systems of nostal savings banks have been established in England and France, and in both countries have been highly successful. They were first authorized in the United Kingdom by act of parliament May 17th, 1861, and were first opened to the public Sept. 16th of the same year at 300 postoffices. At the close of the first year's business 2595 offices were in operation. In 1870 the government postoffice banks of England were 4032, with 1.183,000 depositors; in ten years time the banks doubled and the depositors were 2,000,000-representing 32.000,000 pounds sterling, nor has this vast amount in any way affected ordinary banking. condition, so that nobody is in doubt as to bis 000 on deposit in the savings institutions of the country, mostly in insignificant sums, and drei. The affair was known to the more intimate friends of Mrs. Lawrence Tuesday afteriagn. For the terribly lajured woman, there is, as there should be, the keenest sympathy. It may be truly said of Mrs. Lawrence that she is the personification of nobleness and modesty. Her only solace in this affliction is the conforting presence of her myther, Mrs. Vox Botton, who strived here two months ago fromher home in London.

As if to add another outrage a jeweler, to whom Lawrence was indebted \$120 for a diamond ring which he had bought for the misguided girl, served an attachment Tuesday on the plane which Mrs. Lawrence's certaings as a teacher had paid for. A Resperate Story.

Tucgon, Jan. 24.—The Nagge publishes the following: There was considerable excitament on the streets yeaterday, occasioned by the departure from town of Wyatt and Morgan Earp, Duc Holliday, Texas Jack and three of their retailners whose names we did not learn. They rode up Allen street going east, while the sidewalks were crowded with througe of citizens speculating upon their destination. Each of the horsemen was armed with a shotgun, Winchester ride and at least 100 rounds of ammunition. All sorts of runors were rife upon the streets during the afternoon and evening, but until 6 o'clock no one knew to a certainty which direction after leaving the city the horsemen had taken. Surgent and Polygamy.

New York Sun.

In spite of the sinceré prayers of mill'ons Chester
A. Arthur to-day occupies the place of James A. Garfield; and he proposes to appoint as his secretary of
the interior Asson A. Sargent, a man who deems
polygamy sacred. "Polygany," he says, "is a religious institution, and I have never known persecution to be effective against religion." What he
calls persecution is marely the enforcement of the
laws of the United States. If Gen. Garfield had
lived the aspirations of such a man for the cabinet
would have been as effectual as the longing of Hetan
to enter heaven.

It mosns, Dr. b.

no one knew to a certainty which direction after leaving the city the horsemen had taken. At that hour, however, a boy came in from Heim's ranch and stated he met the Earp party 15 miles from town riding hard in the direction of that ranch. About, two and a half miles behind the Earps was a company of from 15 to 26 cowboys, all heavily armed and riding furiously in pursuit with every prospect in favor of their soon coming up with the foremost party. If the boy's statements are true, and thore seems no reason to doubt them, a bloody combat will surely be the result. The cowboys in addition to their well known fighting proclivities are in this instance animated by a thirst for revenge, and the Earp party is composed of desperate men who will each light to the drath. It is stated that they have all heen swern in as deputy United States marshals in which case they will have the color of law under which to act. The willmate destination of the Earp party set remains unknown to the majority of our citizens. Some think they went out as a United States marshalls posse consists in search of lawless characters, while others are of opinion they are making an attempt to leave the country; the latter class being in a large majority.
